USER TESTIMONIALS

... very practical information and straightforward knowledge delivery
... liked: clinical cases video material
... liked: data and updates on ongoing clinical trials...
... clear and explicit, easy to attend...
... expert view on the current state-of-the art.
... excellent discussion of imaging.
... provided approach to diagnosis.
... very nice with interactive questions!
... online learning can be very efficacious, even more than participating in a live talk.

ACKNOWLEDGEMENTS

We thank our speakers for presenting the webinars, sharing their knowledge and experience on rare neurological diseases:

Bart van de Warrenburg
Kailash Bhatia
Adrian Danek
Tobias Bäumer
Alfons Macaya
Martin Paucar Arce
Paola Guindi
Marc Engelen
Jan Lewerenz
Wassilios Meissner
Nicole Wolf

RESULTS

11 webinars conducted in the time period November 2019 - April 2020
Mean Nr. of registrants: 145
Mean Nr. of attendees: 62
Nr. of countries (by registrants): 40

CONCLUSIONS

- Free of charge expert lectures/ knowledge transmission
- Highly appreciated by attendees
- Numerous suggestions of further topics to be presented
- CME certification under preparation
